## **Cardinal Security Handbook**

The Cardinal Security Handbook should be used in conjunction with the Cardinal Security Access Form and instructions to request the appropriate Core user access to the Cardinal Human Capital Management (HCM) system application. Core user access is access that is required beyond Employee Self-Service (ESS) access.

A single business unit of LOCAL has been established for The Local Choice (TLC) localities. Each TLC Group and Subgroup have an assigned Cardinal Department ID. For localities, a combination of security roles and Department IDs are used to grant access to the Cardinal HCM system.

Roles provide access to pages (functions) within Cardinal. Department IDs provide access to the data associated with the TLC Group. Users need to be assigned the Department ID and the appropriate roles in the Cardinal System to have access to do their jobs. This Cardinal Security Handbook is designed to help localities determine the correct roles for Cardinal users.

**The following sections of this handbook are applicable for Locality use of the Cardinal HCM application.**

## **Cardinal Security Officers (CSO)**

The Virginia Department of Human Resource Management's (DHRM) Cardinal Security Officers, as listed on the Department of Account (DOA) Authorized Signatories Form (DA-04-121), have been granted authority to authorize the Cardinal Security Team to add, update and delete locality users in Cardinal that are both preparers and approvers of transactions in Cardinal. By approving a transaction in Cardinal, the locality, and its employees and agents, agree to the certifications contained in the Commonwealth Accounting Policy and Procedure Manual for the applicable transaction.

## **Cardinal Security Form**

The completed Cardinal Security Form must be reviewed and approved by the DHRM Cardinal Security Officer (CSO). The form should include required signatures prior to submitting to the Cardinal Security Team, in order for access to be granted in Cardinal.

The Cardinal Security Form (SE-LOCALITY-001) can be found on the Cardinal website at [www.cardinalproject.virginia.gov](http://www.cardinalproject.virginia.gov).

Use this form to:

- Assign users to roles within Cardinal
- Update existing Cardinal user information
- Lock out users no longer requiring access to Cardinal

The DHRM Cardinal Security Officer will submit the completed form to the Cardinal Security mailbox at: [cardinal.security@doa.virginia.gov](mailto:cardinal.security@doa.virginia.gov)

## **Cardinal User Roles**

Use this Cardinal Security Handbook as a reference when completing the Cardinal Security Locality Access form, as it defines Cardinal roles by functional area.

You will find the following information in the handbook regarding Cardinal roles:

- Descriptive Role Names
- Role Descriptions & Other Role Considerations
- Segregation of Duties (SOD)/Restricted Roles (RR)
- Additional Approvals Required

## **Restricted Roles**

As noted in the tables that follow, certain roles are designated as Restricted Roles (RR). It is the responsibility of the DHRM Cardinal Security Officer to ensure Restricted Role criteria is met before assigning these roles to agency users.

## **Buddy Roles**

In some cases, two roles in Cardinal must be assigned together for the user to have the appropriate access to perform system tasks (e.g., in HCM the HBO Benefits Support role needs the HR Read Only role). If you select a role on the security form that has a buddy role associated with it and it is not checked on the form, the form will be rejected until all roles are selected properly.

## Benefits Administration User Roles

Benefits Administration (BN) is the functional area containing the processes required for maintaining health and other benefits for the employees of the organization and their dependents. Benefits includes the following processes:

- TLC Plan Selection/Details (Datasheet)
- Administer Event Maintenance
- Affordable Care Act (ACA) Reporting
