This communication is being sent to Primary Contacts and Technical Contacts for Release 2 interfacing agencies that selected one or more upload interfaces. Please forward to others within your agency, as necessary.

What:
Agency Pre Go-Live Upload Processing

Who:
Cardinal HCM Release 2 Interfacing agencies that selected one or more upload interface files.

Why:
Due to the short timeframe between the first Cardinal HCM batch processing (Monday, April 4, 2022) and the first payrolls to be paid out of Cardinal HCM, successful upload of data to Cardinal HCM Production will be critical to ensure the accurate and timely pay of employees. In an effort to provide agencies with as much time as possible to resolve errors, Cardinal will process agency upload files prior to the first scheduled nightly Cardinal HCM batch.

How:
Agencies will need to provide Production upload files per the schedule outlined in the table below. These files should contain Production data (not test data). Depending on the level of errors encountered, Cardinal may reach out to the agency Primary Contact and Technical Contact for a meeting to discuss the errors during the Cardinal processing window (Thursday, March 31, 2022 to Saturday, April 2, 2022).

Step #	Category	Responsible Entity	Due Date	Activity Description
1	Trial TA756 Production File Processing in Cardinal Test Environment	Agency (if selected the TA756 Upload)	Wednesday, 3/30, by 5:00 p.m.	Agency posts production TA756 Time Entry Upload file(s) to their **Production** HCM_Inbound folder. Note – Cardinal is excluding HR uploads from the Trial run to focus on the Time Entry Upload. This may lead to errors in the Time Entry Upload Trial run that would upload successfully in Production after HR upload files are processed.
2	Trial TA756 Production File Processing in Cardinal Test Environment	Cardinal	Thursday, 3/31, by 7:00 a.m.	Cardinal processes the TA756 file(s) in a **test** environment with final converted Production data and provides the trial upload error report to the agency on CN SharePoint. This data is **not** saved in Production for this run. Note - Cardinal will **not** remove the file from the agency Production HCM_Inbound folder. Cardinal will manually pull a copy of the file for processing in the test environment.
3	Trial TA756 Production File Processing in Cardinal Test Environment	Agency (if selected the TA756 Upload)	Friday, 4/1, by 5:00 p.m.	Agency reviews the TA756 error report from the Cardinal HCM **test** environment and either: 1) Remove the previous file from the Production HCM_Inbound folder and transfers a corrected file for Production processing, or 2) Leave the file as-is in the Production HCM_Inbound folder for Cardinal HCM Production processing.
4	Production HR/TA Upload Processing (Pre Deploy)	Agency (if selected HR Uploads)	Friday, 4/1, by 5:00 p.m.	Agency posts production HR003 Employee Data Upload and HR006 Position Data Upload file(s) to their HCM_Inbound folder on the Cardinal HCM **Production** file server.
5	Production HR/TA	Cardinal	Saturday, 4/2	Cardinal processes all agency upload files in Cardinal

				HCM **Production** that are posted to the agency's Production HCM_Inbound folder. Cardinal removes the files from the HCM_Inbound folder after the files are processed and posts the upload error reports to the agency's Production HCM_Outbound folder.
	Upload Processing (Pre Deploy)			
6	Scheduled Nightly Production Batch	Agency	Monday, 4/4, by 6:00 p.m. Monday, 4/4, by 11:00 p.m.	Agency posts any HR upload file(s) for Cardinal processing in the first scheduled Cardinal nightly batch. Agency posts any TA upload file(s) for Cardinal processing in the first scheduled Cardinal nightly batch.
7	Scheduled Nightly Production Batch	Cardinal	Tuesday, 4/5, by 7:00 a.m.	Cardinal transfers the upload error reports and extract files (per agency interface selection) to the agency's Production HCM_Outbound folder. Nightly batch continues Tuesday evening, 4/5, and so on.

Reminder:
HR data will be converted with an effective date of one day prior to the Pay Period Start Date of the first payroll the employee will be paid out of Cardinal HCM. Please keep this in mind to avoid effective date errors in HR upload files.
